NEWSLETTER #7 - L. V. Guerra, Editor

September, 1978

THE GOOD NEWS

A. P. M. S. Meeting, Jacksonville, Florida

A very good meeting. The Local Arrangements Committee did a fine job in setting things up. We are now 566 strong. The banquet was delightful. The speaker, JoAnn Dunaway Zeiger (Chuck's wife), gave a tremendous and excellent program. Although I haven't got my "good times machine" van yet and Nelson Virden hasn't got his \$7,911.22, they will come. JoAnn was magnificent. If you missed her performance, you really missed something.

INTERNATIONAL SESSION

Held for the first time this year and promises to be better in the years to come. We are really getting international and our organization is spreading. If you know of possible international contacts, let the Newsletter Editor know.

OVERALL PROGRAM

President Raynes, then 1st Vice-President, did a very outstanding job in getting the program together. Most papers came in the last two weeks and it almost gave him a case of the "jitters and cold sweats" and he said he'd rather have a case of "scotch and soda".

NEXT YEARS' PROGRAM CHAIRMAN

Bill Rushing from W.E.S. is the victim. Let's be nice to him and send our paper titles and abstracts early. (A form is attached to this newsletter). Beat the rush. Get your paper in early and don't get left out.
