

25 YEAR  
AUTHOR INDEX  
VOLUMES 1 THROUGH 25  
(1962-1987)

A

Abramson, S. C. ....	5:30
Achuff, P. L. ....	8(2):14
Adams, M. S. ....	16:20, 24:1
Akinyemiju, O. A. ....	25:24
Aldrich, A. D. ....	3:1
Alford, H. G. ....	6:12
Aly, O. M. ....	1:10
Ames, M. D. ....	25:11
Anderson, L. W. J. ....	14:1, 19:9, 22:67, 25:11
Anderson, T. M. ....	17:24
Arnold, W. R. ....	17:27, 17:30
Ashton, F. M. ....	25:4, 25:51
Ayoade, G. O. ....	20:56

B

Baer, R. G. ....	19:22
Bagnall, L. O. ....	12:73, 12:79, 13:64, 14:71, 16:27, 18:23, 20:49
Bagwell, M. R. ....	17:54
Baker, G. ....	13:21, 14:8
Balasoorya, I. ....	21:62, 21:100
Balciunas, J. K. ....	23:77
Baldwin, J. A. ....	12:73, 12:79
Baloch, G. M. ....	10:13
Baltrop, J. ....	22:84
Barko, J. W. ....	24:1
Barrett, A. ....	6:50, 7:6
Barrett, P. R. F. ....	19:51
Barnett, B. S. ....	12:12
Bateman, J. M. ....	15:69
Bates, A. L. ....	16:34
Bates, R. P. ....	9:20
Batterson, T. R. ....	15:36, 22:95
Beach, M. L. ....	19:49
Bebawi, F. F. ....	11:31, 11:34
Beck, W. M., Jr. ....	1:12
Beer, S. ....	24:61
Bennett, F. D. ....	7:44, 8(2):10
Benton, A. R., JR. ....	14:14
Bernhardt, E. A. ....	24:20
Berry, C. R., Jr. ....	13:24
Bettoli, P.W. ....	24:46
Bill, S. M. ....	8(1):1, 9:44
Bingham, S. W. ....	8(2):2, 11:49
Bissell, S. R. ....	25:4, 25:51
Bissland, H. R. ....	7:14
Bitting, L. E. ....	5:36, 8(2):33, 12:34, 13:21

Blackburn, R. D. .	1:32, 2:2, 3:19, 5:12, 5:36, 6:15, 8(1):17, 8(2):4, 8(2):42, 9:18, 9:56, 10:22, 10:30, 12:58, 13:27
Blake, J. D. ....	13:3
Blakey, H. I. ....	5:18
Blanchard, J. H. ....	4:3, 6:21, 7:30, 8(2):36
Boston, H. L. ....	18:13
Boucias, D. ....	21:102
Bourne, A. S. ....	16:50, 24:90
Bourque, S. H. ....	7:36
Bowmer, K. H. ....	15:40, 17:4
Bowes, G. ....	15:29, 15:32, 17:61, 23:7, 24:61
Boyd, C. E. ....	7:26, 8(2):42, 19:55, 25:1
Boyd, R. L. ....	10:20
Boyer, K. A. ....	9:56
Braat, I. ....	13:34
Braddock, W. B. ....	5:31
Brazier, G. ....	17:72
Brevedan, R. E. ....	21:36, 25:65
Brinson, M. M. ....	20:4, 21:83
Bruhn, H. D. ....	11:24, 15:12
Bruner, M. C. ....	22:95
Bryant, C. B. ....	8(2):37, 12:53
Buckingham, G. R. ....	19:32, 21:102
Bulthuis, D. A. ....	22:41
Burgdorff, R. E. ....	6:6
Burkhalter, A. P. ....	10:2
Busch, R. L. ....	21:7
Byron, H. T. ....	13:64

C

Campbell, K. L. ....	21:1
Canfield, D. E., Jr. ....	21:69, 22:35, 23:25
Cardarelli, N. F. ....	15:74
Cardo, H. A. ....	17:42
Carey, D. F., Jr. ....	19:3
Carpenter, S. R. ....	16:20
Carter, C. C. ....	12:9, 13:43, 15:47, 15:60, 15:65, 16:40, 16:43, 17:49, 20:17, 20:53
Carter, V. ....	25:54
Cassani, J. R. ....	19:49, 20:30, 23:51
Caton, W. E. ....	20:30, 23:51
Center, T. D. ....	17:76, 24:28
Charudattan, R. ....	11:44, 12:70
Choudhuri, M. A. ....	18:30, 20:33
Ciesiolka, R. J. ....	15:5
Cifuentes, J. ....	14:71
Clark, R. P. ....	11:4, 11:6, 18:41
Clesceri, N. L. ....	24:1
Coble, T. A. ....	25:8

Cody, Y. S. .... 21:58  
 Coffey, B. T. .... 24:39  
 Cohee, P. R. .... 6:8, 9:1  
 Comes, R. D. .... 23:32  
 Conant, R. D., Jr. .... 24:66  
 Cook, C. D. K. .... 23:1  
 Corbus, F. G. .... 20:1  
 Cordo, H. A. .... 14:53  
 Corning, R. V. .... 8(1):7, 13:24  
 Couch, R. W. .... 20:8, 21:107, 25:30  
 Coulson, J. R. .... 9:31  
 Countryman, W. D. .... 8(2):50  
 Cromroy, H. L. .... 13:53  
 Cromwell, R. P. .... 7:42  
 Cummings, J. G. .... 14:4  
 Curren, E. F. .... 18:13

## D

Das, N. .... 8(1):22, 8(1):40  
 Davis, D. E. .... 9:26  
 Davis, G. J. .... 19:3, 20:4, 21:83, 23:68  
 DeBusk, T. A. .... 19:61  
 DeBusk, W. F. .... 25:14  
 Decell, J. L. .... 25:74  
 Dechoretz, N. .... 15:57, 22:67  
 Del Fosse, E. S. .... 13:53, 14:64  
 DeLoach, C. J. .... 14:53, 17:42  
 DeLoach, D. J. .... 17:42  
 Denike, T. J. .... 12:18  
 Denmark, H. A. .... 3:16  
 De Rigo, H. T. .... 5:12  
 Dharurkar, R. D. .... 10:25, 12:26  
 Diatloff, G. .... 17:24  
 Dixon, K. E. .... 16:27  
 Dnyansagar, V. R. .... 10:25, 12:26  
 Doig, M. T., III .... 9:36, 12:5  
 Doty, J. W. .... 5:26  
 Downing, F. .... 11:18  
 Dryden, W. .... 1:13  
 Dunigan, E. P. .... 13:59  
 Duniway, J. M. .... 24:20  
 Durden, W. .... 10:30, 13:27, 24:28

## E

Easley, J. F. .... 12:82  
 Edwards, A. V. .... 8(1):28, 10:1  
 El-Ghazal, R.A.K. .... 24:76  
 Elliston, R. A. .... 10:38  
 Else, M. J. .... 22:22  
 El Seed, M. T. .... 16:53  
 Elser, H. J. .... 8(1):52  
 Engel, S. .... 21:73, 22:43  
 Errede, L. A. .... 8(1):39  
 Estes, R. D. .... 12:20  
 Etheridge, K. .... 23:21

Evrard, T. O. .... 1:9, 12:2  
 Ewel, K. C. .... 13:34

## F

Falk, R. H. .... 22:1, 23:83  
 Faust, S. D. .... 1:10  
 Fauroat, C. W. .... 11:19  
 Fekete, A. .... 14:19  
 Ferguson, F. F. .... 7:7  
 Fernandez, O. A. .... 25:65  
 Finney, S. N., Jr. .... 1:8  
 Fitzgerald, G. P. .... 17:66  
 Fletcher, W. E. .... 7:35, 8(1):36  
 Foret, J. A. .... 13:30  
 Forno, I. W. .... 16:50, 19:27, 22:101  
 Fox, C. J. .... 6:10  
 Frank, R. .... 21:11  
 Freeman, T. E. .... 21:49, 21:53  
 Friedman, H. J. .... 3:1, 25:70  
 Friend, U. S. .... 21:32  
 Frizzell, J. L. .... 1:14  
 Frye, J. W. .... 12:46  
 Frye, O. E., Jr. .... 10:12  
 Fuge, N. L. .... 8(1):24

## G

Gallagher, J. E. .... 1:17, 3:8, 4:25, 7:4, 8(2):54  
 Gangstad, E. O. .... 9:46, 10:4, 11:13, 11:9, 12:3, 12:20,  
 12:25, 13:27, 13:30, 14:10, 14:43, 14:50,  
 15:3, 15:74, 16:11, 16:38, 20:13,  
 20:45, 21:65, 22:78  
 Garrard, L. A. .... 14:26, 14:29, 15:29, 15:32,  
 16:57, 19:40, 19:44  
 Gates, R. J. .... 8(2):16, 10:28  
 Geiger, R. W. .... 8(2):21, 12:18  
 Getsinger, K. D. .... 20:4  
 Ghani, M. A. .... 10:13  
 Gholson, A. K., Jr. .... 7:18  
 Gladstone, S. M. .... 23:92  
 Goldsby, T. L. .... 14:7, 15:23, 16:34  
 Gorman, J. D. .... 6:2, 6:48  
 Goyer, R. A. .... 22:57  
 Grace, J. B. .... 16:1  
 Graetz, D. A. .... 21:1  
 Grant, Z. C. .... 1:24, 5:1  
 Grinwald, M. E. .... 7:31  
 Guerra, L. V. .... 12:52  
 Gunasekera, I. J. .... 21:100  
 Gunasekera, S. A. .... 21:62, 21:100  
 Guppy, R. H. .... 6:24

## H

Haag, K. H. .... 24:70  
 Habeck, E. R. .... 12:15, 13:53, 21:26

Hafner, E. R. ....	8(1):42	Kassulke, R. C. ....	22:101
Hall, J. F. ....	21:22, 25:26	Kay, S. H. ....	20:37, 21:38, 22:25
Hall, L. ....	6:37, 8(1):34	Keckemet, O. ....	8(1):50
Hall, T. F. ....	9:4, 12:38	Kelley, A. D. ....	23:32

25 YEAR  
 SUBJECT INDEX

VOLUMES 1 THROUGH 25

A

*Acentria nivea*, biology and host specificity .... 19:32  
*Acremonium zonatum*, electron microscopy of  
 penetration of water hyacinth .... 21:53  
 Acrolein, commercial application of .... 8(2):53  
 Acrolein, for elodea control .... 4:22  
 Acrolein, management of aquatic plants .... 15:40  
 Aerial color infrared photography mapping  
 aquatic weeds and control by grass carp .... 24:46  
 Aerial photography for aquatic plants .... 14:14  
 Aerobic community metabolism .... 14:45  
 Africa, hydrilla isoenzymes, morphology  
 and chromosomes .... 23:72  
 Agasicles, for biological control of  
 alligatorweed .... 6:31  
*Agasicles hygrophila*, reintroduction into the U.S. ... 21:102

Agricultural canals, capturing grass carp .... 24:57  
 Agricultural drainage water and aquatic plants ..... 21:1  
 Airboat, injecting 2,4-D into spray system ..... 2:1  
 Airboat, water intake system for ..... 4:1  
 Aircraft, for 2,4-D application ..... 3:22  
 Aircraft, use for aquatic weed control ..... 6:50  
 Aircraft, use in herbicide application ..... 2:20  
 Aircraft, use of helicopter to apply herbicides ..... 6:11  
 Algae, comparative algicide evaluations ..... 17:66  
 Algae, control measures used in Illinois ..... 7:11  
 Algae, control of Chara with Casoron AQ ..... 6:19  
 Algae, effects of herbicides on photosynthesis  
 and growth ..... 10:45  
 Algae, identification ..... 4:5  
 Algae, relationship of nutrients to growth ..... 9:58  
 Algicide evaluations ..... 17:66  
 Algicide, investigation of PH4062 ..... 22:67

 Algicide evaluations ..... 17:66  
 Algicide, investigation of PH4062 ..... 22:67

Allelopathic chemicals, effects on sprouting	
hydrilla tubers .....	24:88
Alligatorweed, action of various herbicides	
applied to roots and foliage .....	8(1):36
Alligatorweed, biological control .....	14:50
Alligatorweed, biological control with Agasicles .....	6:31
Alligatorweed biotypes, evidence for the	
existence .....	20:37
Alligatorweed, control .....	3:2
Alligatorweed, control in southeastern states .....	13:27
Alligatorweed, control with invert emulsion	
formulations .....	5:12
Alligatorweed, control with Silvex .....	12:20
Alligatorweed, control with Visco-Rhap .....	8(2):9
Alligatorweed flea beetle, range in S. Carolina .....	23:92
Alligatorweed flea beetle, reintroduction	
into the U.S. ....	21:102
Alligatorweed, genetic relationships .....	22:104
Alligatorweed, integrated control of .....	13:30
American Lotus, replacement of hydrilla .....	21:41
Amitrol-T, field experiments for aquatic	
weed control .....	2:8
Amitrol-T, use in control of waterhyacinth .....	1:17
Angiosperms, characterization of chilling-	
sensitivity .....	20:33
Animal feed, trials of <i>Pista stratiotes</i> .....	20:56
Application, aerial methods .....	2:20
Application, aquatic application service .....	4:19
Application, bivert control of hydrilla .....	11:18
Application, bottom placement technique for	
control of hydrilla and vallisneria .....	12:46
Application, drift free spraying .....	4:20
Application, effect of nozzle wear on output	
in spraying .....	7:42
Application, experiments with wettable powders .....	8(1):39
Application, Hercules invert spray system .....	6:8
Application, improved techniques for herbicides ..	13:21
Application, in large scale program of control .....	5:6
Application, in residential area .....	5:36
Application, injecting 2,4-D into an airboat	
spray system .....	2:1
Application, invert emulsion formulations .....	5:12
Application, legal liability .....	3:23
Application, mechanics of spray apparatus .....	8(2):29
Application, methods and equipment .....	6:50
Application, Rhap-Trol system for invert emulsion ..	3:16
Application, safe and fast methods .....	7:39
Application, safe use of 2,4-D .....	3:22
Application, safety to humans and wildlife .....	7:4
Application, Stull bifluid spray system .....	6:6
Application, training applicators in safe	
herbicide use .....	5:5
Application, 2,4-D for milfoil control .....	9:4
Application, use of Acrolein .....	8(2):53
Application, use of helicopter to apply	
herbicides to aquatic weeds .....	6:11

Application, use of Vistik for drift control	
and equipment efficiency .....	6:10
Application, vacuum system used to fill	
chemical tanks .....	4:2
Application, water intake system for airboats .....	4:1
Aqualin, control of submersed weeds .....	1:12
Aquascreen, control of macrophytes .....	21:103
Aquashade, effect on growth, photosynthesis,	
and phosphorus uptake of microalgae .....	22:80
Aquathol K, effects of hydrilla .....	21:17
Aquatic plant compost production and utilization ..	16:24
Aquatic plant consumption by the West Indian	
manatee .....	23:21
Aquatic plant control and terbutryn	
disappearance from treated waters .....	21:11
Aquatic plant control using multiple inversion	
and clean-flo lake cleanser .....	17:33
Aquatic plant industry, and introduction to	
exotics to Florida waters .....	8(1):48
Aquatic plant management, environmental	
factors to consider .....	24:1
Aquatic plant management, federal	
environmental acts .....	18:41
Aquatic plant management program, Corps	
of Engineers .....	17:72
Aquatic plant management program in	
British Columbia .....	17:12
Aquatic plant management society, history .....	25:69
Aquatic plant management with herbicides ..	14:80, 15:83
Aquatic plant regulation program .....	14:7
Aquatic plant succession .....	15:60
Aquatic plants and bilharzia-bearing snails .....	23:87
Aquatic plants, effects of harvesting .....	23:59
Aquatic plants from the alimentary tract of	
grass carp .....	17:49
Aquatic plants in the Philippines .....	14:10
Aquatic plants used in chinampa .....	17:74
Aquatic plants, water fluctuation .....	18:19
Aquatic vascular plants, distribution .....	23:1
Aquatic vegetation, choice of correct	
herbicide .....	8(1):30
Aquatic vegetation, commercial control in	
the southeastern United States .....	6:20
Aquatic vegetation, control and aquatic	
environment .....	10:12
Aquatic vegetation, control by nutrient removal ....	12:41
Aquatic vegetation, control data for	
Volta Lake .....	9:49
Aquatic vegetation, control in Florida	
conservation districts .....	7:14
Aquatic vegetation, control in Panama Canal .....	5:1
Aquatic vegetation, control in United States .....	8(2):54
Aquatic vegetation, control objectives of	
various agencies .....	6:26
Aquatic vegetation, control programs .....	9:46
Aquatic vegetation, control with Hydrothol .....	1:14

Aquatic vegetation, control with invert emulsions .....	8(1):44	Aquatic vegetation, history and control in Lake Seminole, Florida .....	7:18
Aquatic vegetation, control with pre-emergence herbicides .....	2:1	Aquatic vegetation, history and future of control in Florida .....	8(1):26
Aquatic vegetation, control with time release herbicide system .....	8(2):21	Aquatic vegetation, history and spread in New England .....	8(2):50
Aquatic vegetation, cost and effectiveness of Dade County control programs .....	8(1):34	Aquatic vegetation, identification .....	4:5
Aquatic vegetation, declines noted in Maryland .....	8(1):52	Aquatic vegetation, identification of common species .....	1:32
Aquatic vegetation, economic aspects of control .....	6:21	Aquatic vegetation, in Cross-Florida Barge Canal .....	8(2):14
Aquatic vegetation, economic chemical control in Florida drainage system .....	7:37	Aquatic vegetation, management and control in India .....	13:6
Aquatic vegetation, economic factors of control in central and southern Florida .....	7:16	Aquatic vegetation, mechanical and chemical control in Winter Park, Florida .....	7:30
Aquatic vegetation, economic factors of control in Louisiana .....	7:28	Aquatic vegetation, mechanical control .....	6:22
Aquatic vegetation, effect of nutrients on growth .....	9:58	Aquatic vegetation, mechanical harvesting .....	7:31
Aquatic vegetation, effect of sewage on growth .....	9:26	Aquatic vegetation, method of preserving .....	2:2
Aquatic vegetation, effect on canals .....	8(2):40	Aquatic vegetation, nutrient elements for livestock .....	12:82
Aquatic vegetation, effect on fish .....	1:7	Aquatic vegetation, nutrient removal potentials .....	8(2):34
Aquatic vegetation, effect on Lake Apopka .....	8(2):45	Aquatic vegetation, outlook for control activities .....	5:18
Aquatic vegetation, effect on water level in shallow reservoir .....	11:54	Aquatic vegetation, planning a large scale program of control .....	5:6
Aquatic vegetation, effect of water pollution .....	8(2):48	Aquatic vegetation, problems and control in Florida .....	8(2):16
Aquatic vegetation, effects caused by controlled- release herbicides .....	11:61	Aquatic vegetation, problems and control in southeast Asia .....	13:2
Aquatic vegetation, effects of Clean-Flo (nutrient remover) on growth .....	12:44	Aquatic vegetation, problems in Australia .....	8(1):1
Aquatic vegetation, effects of water pollution .....	1:12	Aquatic vegetation, problems in estuarine areas .....	9:25
Aquatic vegetation, effects of winter drawdowns in shallow water .....	12:9	Aquatic vegetation, problems in chemical control ....	7:33
Aquatic vegetation, endothall control in irrigation canals .....	8(1):32	Aquatic vegetation, problems of choice and application of herbicides .....	3:9
Aquatic vegetation, environmental quality .....	7:7	Aquatic vegetation, recommended herbicides for weed control in five Florida regions .....	5:32
Aquatic vegetation, evaluation as possible feedstuffs .....	7:26	Aquatic vegetation, relation of <i>Parapoynx</i> caterpillars to .....	12:15
Aquatic vegetation, exotics introduced by aquatic plant industry .....	8(1):48	Aquatic vegetation, relationship to mosquito control .....	1:6
Aquatic vegetation, factors influencing growth in Florida canals .....	3:20	Aquatic vegetation, results of various herbicide controls tested in Leon County, Florida .....	4:3
Aquatic vegetation, factors to be considered in formulation and use of herbicides .....	3:8	Aquatic vegetation, role in eutrophication .....	8(2):26
Aquatic vegetation, field control experiments with Silvex and Amitrol-T .....	2:8	Aquatic vegetation, role in mosquito control .....	6:26
Aquatic vegetation, fish populations in dense submersed plant communities .....	12:12	Aquatic vegetation, role of Department of Natural Resources in research .....	11:2
Aquatic vegetation, Florida Audubon's viewpoints on control .....	7:21	Aquatic vegetation, seasonal changes in composition .....	8(2):42
Aquatic vegetation, Florida Department of Natural Resources control policies and plans .....	10:2	Aquatic vegetation, species and control measures in lower Mekong River basin .....	10:4
Aquatic vegetation, harvesting-effects and costs .....	8(2):37	Aquatic vegetation, suggested control measures for common Florida species .....	2:2
Aquatic vegetation, herbicide control in Volusia County, Florida .....	5:31	Aquatic vegetation, toxic fungal isolates .....	12:70

Aquatic vegetation, UNESCO meeting on control .....	8(2):23	Benthic semi-barriers in aquatic weed management	16:31
Aquatic vegetation, use of CASORON in control ....	5:20	Benthic screens to control seagrass .....	22:41
Aquatic vegetation, use of drawdown for control in Lake Ocklawaha .....	13:43	Bighead carp, hybridization .....	19:37
Aquatic vegetation, use of models for weed control .....	13:34	Bilharzia-bearing snail and aquatic vegetation .....	23:87
Aquatic vegetation, used to fertilize soil .....	9:34	Bioassay to evaluate phosphorus from sediments ..	14:19
Aquatic vegetation, water level manipulation for control .....	13:8	Biological control, caterpillars of <i>Parapoynx</i> .....	12:15
Aquatic vegetation, white amur used for control in India .....	10:16	Biological control, control of elodea by nutrient control agents .....	9:36

Fitzroy River .....	15:5	Waterhyacinth, nutritional value as catfish food .....	9:40
Waterhyacinth, control on the St. John's River .....	15:10	Waterhyacinth, papermaking properties .....	12:90
Waterhyacinth, control with Amitrol-T .....	1:17	Waterhyacinth, phototoxicity of DPX5648 .....	21:106
Waterhyacinth, control with herbicides		Waterhyacinth, pressing .....	14:71
and <i>Neochetina</i> .....	24:70	Waterhyacinth, preservation of silage .....	13:64
Waterhyacinth, control with invert emulsion		Waterhyacinth, problems in Queensland .....	13:3
formulations .....	5:12	Waterhyacinth, processing and storage of silage ....	12:73
Waterhyacinth, control with 2,4-D and 2,4,5-T ....	8(1):22	Waterhyacinth, removal of nitrogen and	
Waterhyacinth, correlation to mosquito breeding ....	1:18	phosphorus from eutrophic waters .....	13:59
Waterhyacinth, decline by <i>Cercospora piaropi</i> .....	23:29	Waterhyacinth, removal of phosphorus from sewage	
Waterhyacinth, determination of dry weights .....	18:40	.....	13:56
Waterhyacinth, effect of herbicides on		Waterhyacinth, research in Puerto Rico .....	12:48
root tip mitosis .....	12:26	Waterhyacinth, silage, preservation and	
Waterhyacinth, effect of herbicides on		acceptability to cattle .....	12:79
seed germination .....	10:25	Waterhyacinth, uptake of copper by .....	9:18

Waterhyacinth, use in feeding trials with <i>Brycon</i> sp. ....	19:19	Weed control districts, control programs .....	1:24
Waterhyacinth, use in paper factory .....	21:32	Weed control districts, economic factors of weed control in southern and central Florida districts .....	7:16
Waterhyacinth, value in fish production .....	1:8	Weed control districts, herbicides recommended for five Florida regions .....	5:32
Waterhyacinth weevils, collection and release .....	17:78	Weed control districts, problems in Walla Walla district .....	9:9
Waterhyacinth/weevil interaction, temporal differences .....	24:28	Weed control districts, tax support for .....	1:13
Waterhyacinth weevil populations in Louisiana .....	17:39	Weed control districts, weed control in sub-drainage districts of Florida Everglades .....	5:26
Waterhyacinth, world distribution .....	4:30	Weed control in canals in Argentina .....	25:65
Water lettuce, biological control .....	22:101	Weed control with fluridione in New Zealand .....	24:39
Water lettuce, ecology-physiology .....	22:17	Weight of propagules of hydrilla .....	25:11
Water lettuce, observations of <i>Samea</i> <i>multiplicalis</i> on .....	17:42	West Indian manatee, consumption of aquatic plants .....	23:21
Water levels and aquatic flora .....	18:19	Wettable powders, experiments in aquatic weed control .....	8(1):39
Water levels and growth of spikerush .....	25:51	White amur, biological control of waterhyacinth ....	14:64
Water obstruction of navigation .....	1:16	White amur, control of aquatic weeds in Indiana ..	10:16
Water quality, aquatic plants and agricultural drainage water .....	21:1	White amur, effect on water quality in small enclosures .....	10:22
Water quality during herbicide applications .....	19:15	White amur, energy balance when fed <i>Egeria</i> .....	12:62
Water quality effects on plant regrowth .....	15:65	White amur, feeding on waterhyacinth .....	12:58
Water quality, impact of integrated management in a citrus grove .....	21:69	White amur, food and growth .....	12:55
Water quality in ponds, effect of simazine .....	21:7	White amur, research in Arkansas .....	10:20
Water quality, restoration in Lake Weston .....	15:69	White amur, utilization of hydrilla .....	12:66
Water transparency, effect on macrophyte colonization depth .....	23:25		
Water, 2,4-D residue .....	14:43		
Weed control by <i>Azolla</i> in rice .....	23:40		
Weed control districts, aquatic weed control practices in .....	7:14		
		Z	
		Zooplankton, impact of weeds .....	21:78

## KEY WORD INDEX

Issues of the Journal from Volume 21 to 25 contained the following key words. Use of key words was initiated with Volume 21.

A			
ABA .....	24:80	<i>Ankistrodesmus</i> .....	22:25, 80
Abscission .....	22:1	Aquashade .....	22:80
Acetylene reductase .....	25:43	Aquathol .....	24:43
<i>Acremonium zonatum</i> .....	21:58	Aquatic floating plants .....	25:48
Adaptation .....	23:32	Aquatic herbivores .....	23:21
Aerial Photography .....	24:46	Aquatic macrophyte .....	22:67; 23:51, 64
After-ripening .....	24:11	Aquatic plant .....	23:36
Algae .....	22:43, 80	Aquatic plant control .....	21:65
Allelopathy .....	21:92; 24:16, 76, 82	Aquatic vegetation .....	23:87
Alligatorweed .....	22:78	Aquatic weeds .....	21:43, 58; 22:57; 23:16, 26, 64; 24:16, 28; 25:1, 4, 33, 51
Ammonia .....	22:97	Attached algae .....	22:48
<i>Anabaena</i> .....	22:25, 80	Australia .....	22:41
Analysis of Covariance .....	22:95	<i>Azolla</i> .....	23:40

Waterhyacinth, use in feeding trials with <i>Brycon</i> sp. ....	19:19	Weed control districts, control programs .....	1:24
Waterhyacinth, use in paper factory .....	21:32	Weed control districts, economic factors of weed control in southern and central Florida districts .....	7:16
Waterhyacinth, value in fish production .....	1:8	Weed control districts, herbicides recommended for five Florida regions .....	5:32
Waterhyacinth weevils, collection and release .....	17:78	Weed control districts, problems in Walla Walla district .....	9:9
Waterhyacinth/weevil interaction, temporal differences .....	24:28	Weed control districts, tax support for .....	1:13
Waterhyacinth weevil populations in Louisiana .....	17:39	Weed control districts, weed control in sub-drainage districts of Florida Everglades .....	5:26
Waterhyacinth, world distribution .....	4:30	Weed control in canals in Argentina .....	25:65
Water lettuce, biological control .....	22:101	Weed control with fluridione in New Zealand .....	24:39
Water lettuce, ecology-physiology .....	22:17	Weight of propagules of hydrilla .....	25:11
Water lettuce, observations of <i>Samea</i> <i>multiplicalis</i> on .....	17:42	West Indian manatee, consumption of aquatic plants .....	23:21
Water levels and aquatic flora .....	18:19	Wettable powders, experiments in aquatic weed control .....	8(1):39
Water levels and growth of spikerush .....	25:51	White amur, biological control of waterhyacinth ....	14:64
Water obstruction of navigation .....	1:16	White amur, control of aquatic weeds in Indiana ..	10:16
Water quality, aquatic plants and agricultural drainage water .....	21:1	White amur, effect on water quality in small enclosures .....	10:22
Water quality during herbicide applications .....	19:15	White amur, energy balance when fed <i>Egeria</i> .....	12:62
Water quality effects on plant regrowth .....	15:65	White amur, feeding on waterhyacinth .....	12:58
Water quality, impact of integrated management in a citrus grove .....	21:69	White amur, food and growth .....	12:55
Water quality in ponds, effect of simazine .....	21:7	White amur, research in Arkansas .....	10:20
Water quality, restoration in Lake Weston .....	15:69	White amur, utilization of hydrilla .....	12:66
Water transparency, effect on macrophyte colonization depth .....	23:25		
Water, 2,4-D residue .....	14:43		
Weed control by <i>Azolla</i> in rice .....	23:40		
Weed control districts, aquatic weed control practices in .....	7:14		
		Z	
		Zooplankton, impact of weeds .....	21:78

## KEY WORD INDEX

Issues of the Journal from Volume 21 to 25 contained the following key words. Use of key words was initiated with Volume 21.

A			
ABA .....	24:80	<i>Ankistrodesmus</i> .....	22:25, 80
Abscission .....	22:1	Aquashade .....	22:80
Acetylene reductase .....	25:43	Aquathol .....	24:43
<i>Acremonium zonatum</i> .....	21:58	Aquatic floating plants .....	25:48
Adaptation .....	23:32	Aquatic herbivores .....	23:21
Aerial Photography .....	24:46	Aquatic macrophyte .....	22:67; 23:51, 64
After-ripening .....	24:11	Aquatic plant .....	23:36
Algae .....	22:43, 80	Aquatic plant control .....	21:65
Allelopathy .....	21:92; 24:16, 76, 82	Aquatic vegetation .....	23:87
Alligatorweed .....	22:78	Aquatic weeds .....	21:43, 58; 22:57; 23:16, 26, 64; 24:16, 28; 25:1, 4, 33, 51
Ammonia .....	22:97	Attached algae .....	22:48
<i>Anabaena</i> .....	22:25, 80	Australia .....	22:41
Analysis of Covariance .....	22:95	<i>Azolla</i> .....	23:40

<b>B</b>	
Benthic macroinvertebrates .....	21:78
Benthos .....	22:43
Bicarbonate utilization .....	24:61
Bilharzia .....	23:87
Biocontrol .....	21:53, 62; 22:57, 87; 24:16, 24, 70, 76
Bioenergy .....	24:24
Biological control .....	22:97; 23:21, 29; 24:20, 28, 46; 25:4, 51
Biomass .....	21:83; 22:17; 23:16, 36, 68; 24:61, 85
Biomass sampling .....	23:16
Blue-green algae .....	22:80, 25:40
<i>Bromphalaria</i> .....	23:87
<i>Bulinus</i> .....	23:87

<b>C</b>	
<i>Cabomba</i> .....	22:25; 23:42; 24:76
Caddisflies .....	23:77
Canals .....	24:85
Carboxylases .....	23:7
Carrier volume .....	24:66
<i>Ceratophyllum</i> .....	23:16
<i>Cercospora</i> .....	21:62
<i>Cercospora piaropi</i> .....	23:29
<i>Cercospora rodmanii</i> .....	21:58
<i>Chara</i> .....	22:67
Chemical control .....	22:25; 23:51; 24:39, 85
Chilled-wet .....	24:11
Chlorophyll-a .....	22:48; 25:19
<i>Cladophora glomerata</i> .....	22:67
Climate .....	25:48
Clones .....	23:72
Coefficient of determination .....	22:35
Competition .....	22:52; 23:7; 24:16, 61, 85; 25:4, 51
Contact herbicide .....	22:25
Control-release .....	22:97
Coontail .....	22:38; 24:46
Copper .....	21:68
Copper sulfate .....	22:67

<b>D</b>	
Density .....	22:75
Dicamba .....	22:78
Diffusion .....	24:82
Dioxin .....	21:65
Diquat .....	22:78
Disease resistance .....	21:43, 53, 58
Displacement .....	22:52
Dissolved oxygen .....	25:19
Distribution .....	23:1
Ditchbank .....	23:32
Ditchbank stabilization .....	23:32
Ditchbank vegetation .....	23:32

Drainage .....	21:68
Dredging .....	22:38
Dry weight .....	22:52
Dual culture .....	23:40
Dyes .....	25:40

<b>E</b>	
Ecology .....	24:1; 25:4, 51
Economics .....	22:75
Efficacy .....	22:75; 24:39
<i>Egeria</i> .....	22:25
Egypt .....	23:87
<i>Eichhornia crassipes</i> .....	22:57; 23:29; 24:28, 70
Electron microscopy .....	21:43; 22:1
Electrophoresis .....	21:96; 23:42
Elodea .....	22:43; 24:76; 25:14
Endosperm .....	23:83
Endothall .....	21:68; 22:78
Environment .....	25:4, 51
Enzymes .....	23:42
Epiphytes .....	22:48
Ethepon .....	22:22
Ethylene .....	22:22; 24:80
Eurasian watermilfoil .....	21:83; 22: 78, 87; 24:46; 25:58
Evapotranspiration .....	22:17
Excised .....	24:11
Exotic .....	23:1
Exotic plants .....	24:85
Extract .....	21:92

<b>F</b>	
Fanwort .....	21:96
Fathometer tracing .....	22:35
Filamentous algae .....	25:40
Florida .....	23:16
Flowers .....	22:1; 23:68
Food intake .....	23:21
Fragmentation .....	25:19
Fungi .....	23:29
Fungi antagonism .....	21:62

<b>G</b>	
Genetic differentiation .....	21:96
Genetic identity .....	21:96
Genetic variability .....	23:72
Germination .....	21:92; 23:83; 24:11; 25:54
Glyphosate .....	21:68; 24:66
Grass carp .....	21:68; 22:97
Growth .....	22:95; 23:16; 24:80
Growth regulators .....	24:80
Growth regulation .....	22:75

<b>H</b>	
Habitats .....	21:78

Harvesting .....	23:59; 25:58	Milfoil .....	22:43; 25:8
Herbicide .....	22:48; 24:43	Migration .....	23:1
Herbicide screen .....	24:39	Models .....	23:26
Herbicide tolerance .....	23:32	Molluscivorous fish .....	23:87
Herbivory .....	24:24, 28	Moths .....	23:77
Histochemistry .....	21:49, 58	Multiple diffusion unit .....	24:82
Host specificity .....	23:77	<i>Myriophyllum</i> .....	22:25; 23:59; 24:76; 25:58
HPLC .....	22:84		
Hybrid grass carp .....	23:51	N	
<i>Hydrellia</i> .....	23:77	<i>Najas</i> .....	23:16
Hydrilla .....	21:68, 78, 87; 22:25, 35, 84, 87, 95; 23:7, 21, 26, 42, 51; 24:20, 46; 25:11, 54	Native .....	23:1
<i>Hydrilla verticillata</i> .....	23:77; 24:20	Native plants .....	24:16
I		Natural enemies .....	23:77
Illinois pondweed .....	22:87	Natural products .....	22:84; 24:82
Incubation .....	21:92; 24:11	<i>Nectopsyche</i> .....	23:77
Infrared photography .....	23:29	<i>Neochetina eichhorniae</i> .....	24:28
Inhibitor .....	21:92; 22:84	Nitrogen .....	21:87; 25:14, 33
Inorganic carbon .....	24:1	Nitrogen uptake .....	23:36
Insect-plant interactions .....	24:28	Non-structural carbohydrates .....	25:58
Integrated pest management .....	24:70	North Carolina .....	24:43
Integuments .....	23:83	Nutrients .....	24:1
Irrigation .....	21:68; 24:43	Nutrient uptake .....	25:14
Irrigation management .....	23:87	O	
Isozymes .....	21:96	Organism interactions .....	24:82
Isozyme patterns .....	23:72	Omnivorous fish .....	23:87
L		Oxygen .....	22:41
Lake Apopka .....	25:43	P	
Lake Washington .....	25:58	<i>Panicum</i> .....	21:68
Leachates .....	21:92; 24:76	<i>Paraponyx</i> .....	23:77
Leaf form .....	23:72	Papillae .....	21:53
Leaf size .....	23:72	Pathogenicity .....	21:62
Leaves per whorl .....	23:72	Pericarp .....	23:83; 24:11
<i>Lepomis</i> .....	23:59	pH .....	24:39, 61
Light .....	24:1, 39, 61	pH effects .....	23:7
Light intensity .....	25:8	Phenol cells .....	21:53
Light penetration .....	22:25	Phenology .....	22:17; 23:68
Light quality .....	25:8	Phenotypic plasticity .....	21:96
Line transects .....	22:87	Phenoxy herbicides .....	21:65
Littoral .....	21:78	Phosphorous .....	21:87; 25:14, 33
<i>Lyngbya majescula</i> .....	25:40	Phosphorous uptake .....	22:80
M		Photodynamic action .....	25:40
Macroinvertebrates .....	23:51	Photosynthesis .....	22:80, 84; 23:7
Macrophytes .....	22:41; 23:26, 59; 25:33	Phytochrome .....	25:8
Macrophyte decline .....	21:83	Phytogeography .....	23:1
Marine .....	22:41	Phytoplankton .....	22:25
Marsh plants .....	25:1	Phytotoxicity .....	24:66
Mechanical .....	21:68	Plankton .....	23:51
Mechanical control .....	22:97	Plant biomass .....	22:43
Mechanical harvesting .....	25:19	Plant-insect interactions .....	24:24
<i>Micropterus</i> .....	23:59	Plant nutrients .....	21:87
		Plant pathogens .....	24:20
		Plant vigor .....	22:58
